

You're Invited!
Wood-Mizer
SAWMILL
TREK

COMING SOON
TO A LOCATION
NEAR YOU!

Wood-Mizer Products will be stopping at **SEVEN** different Colorado locations and giving **LIVE DEMONSTRATIONS** of some of our most famous portable sawmills. Come by and make a cut on the popular **LT15** and one of Wood-Mizer's hydraulic sawmills and see why more than 40,000 have chosen to turn logs into lumber with a Wood-Mizer.

Plan now to attend a FREE, information-based demonstration in your community. Demonstrations are from 2:00pm until dark.

Stop by and ask about:

- The environmental advantages of thin-kerf sawing
- How to salvage lumber from beetle-kill timber
- How to make money with a portable sawmill
